

Freedom Motors USA — Scope of Work & Estimate

NEXT.JS 15 APP ROUTER + SANITY CMS CONTENT LAKE MIGRATION

Client: Freedom Motors USA (Battle Creek, MI)

Date: September 2026 • Valid for: 30 Days

Rate: \$38.00 / hour • Turnaround: 2–3 Weeks

INGESTION ENGINE

04:00 AM FTPS Cron

Streaming ExcelJS batch parser

EDITORIAL SAFETY

0.00% Overwrite Risk

Sanity fieldset programmatic locks

EDGE LATENCY

< 50ms On-Demand ISR

revalidateTag without redeployment

ADA SECTION 508

100% Compliant

Wheelchair fit calculator & CAPI

MILESTONE BREAKDOWN & DELIVERABLES

PHASE	TECHNICAL DELIVERABLE SCOPE	HOURS	RATE	SUBTOTAL
Phase 0 (Delivered)	Interactive Architectural Demo & Migration Cockpit Functional Next.js App Router prototype with live AI spec enricher, Sanity fieldset explorer, and webhook workbench.	0 hrs	\$0.00	\$0.00
Phase 1	Sanity Studio Schema & Fieldset Locks Isolated 'sync' vs 'editorial' fieldsets, programmatic readOnly access locks, GROQ catalog query pipelines.	16 hrs	\$38.00	\$608.00
Phase 2	Daily FTPS Ingestion Daemon & Sentry Watchdog Scheduled 04:00 AM cron, streaming ExcelJS parser, atomic client.patch() mutations, error monitoring hooks.	18 hrs	\$38.00	\$684.00
Phase 3	Next.js 15 App Router Frontend & Sub-50ms ISR React Server Component VDPs, on-demand edge tag revalidation, wheelchair ramp clearance fit calculator.	18 hrs	\$38.00	\$684.00
Phase 4	Third-Party Telemetry & CRM Lead Capture Google Tag Manager dataLayer stream, Meta Conversions API (CAPI) server bridge, HubSpot test drive form routing.	10 hrs	\$38.00	\$380.00
Phase 5	3-Tier Environment Isolation & Production Cutover Isolated datasets (dev/stage/prod), dataset migration CLI, zero-downtime DNS cutover, operational handoff.	8 hrs	\$38.00	\$304.00

Turnkey Fixed-Price or Calibrated Hourly Scope

70 Billable Engineering Hours • 2–3 Week Turnaround • 30-Day Post-Launch Warranty Included

TOTAL INVESTMENT

\$2,660.00
